

**A BKP PARTNER IN SPAIN - HIDROTEC SANEJAMENT S.L, IS A PRIZE WINNER!**

Many congratulations go to Hidrotec Sanejament S.L. and its CEO Javier Yagüe Garreta, on behalf of BKP, for winning an award in the category of an Innovative project and/or service, at the recently concluded BBConstrumat 2017 exhibition held in Barcelona.

Hidrotec, with more than 20 years working in the sector, are themselves based in Barcelona, and provide pipeline CCTV inspection, robotics cleaning and pipeline rehabilitation services in Spain.

Javier Yagüe Garreta - CEO of Hidrotec Sanejament S.L, giving a demonstration of BKP's Berolina-Liner system, outside one of the main exhibition halls at Construmat, Barcelona 2017.

Hidrotec has adopted the Berolina-Liner system as part of their portfolio of products and services offered to their clients.

Javier Yagüe - Hidrotec's CEO since 2004, successfully carried out a live demonstration of a pipe rehabilitation, using the Berolina-Liner and using the UV cured CIPP system, drawing a lot of interest from a large crowd of exhibition visitors.

Markus Persson, representing BKP's International Exports, was able to join Javier and

observe the successful demonstration, and to offer many congratulations on behalf of BKP to Javier and all his team at Hidrotec for receiving the BBConstrumat award for innovative projects and services.

BKP wishes Hidrotec continued success with the provision of its trenchless services to all its clients, and are proud to have the Berolina-Liner system included as an important part of Hidrotec's pipeline rehabilitation solutions

Markus Persson, offering congratulations on behalf of BKP to Javier Yagüe Garreta at Construmat, Barcelona 2017.
